HW 10600-9 DFS Tabletop Air Purification System

The HealthWay 10600-09 DFS Air Purifier is designed for home or small office use. It uses the same advanced, patented technology that makes HealthWay the world leader in indoor air quality. The simple, stylish design compliments any bedroom or small living space decor.

FEATURES

Particle efficiency - 99.99% @ 0.3 micron

5-stage VOC adsorption filter for heavy removal of harmful gases and odors

Patented DFS technology efficiently removes up to 99% of airborne mold, bacteria and viruses passing through the system.

Each machine is independently tested and certified to guarantee better than HEPA efficiency

SPECIFICATIONS

Dimensions (inches) 13w x 8.75d x 20h

Weight 17lbs (8kg)

high med low

Power Consumption (Watts) 65 40 35

CFM (Cubic Feet/Minute) 100 60 35

Operation Noise (dB) 60 50 40

Substantial reduction in airbourne microorganisms, chemicals, offensive gases odors and smoke.

Less dust and dander, pollen, dust mite waste, bacteria, mold, fungi and virus protection

Slim, compact, ultra slim design

Easy to maintain

A clean and fresh smelling environment

The revolutionary DFS technology reduces bioburden and inhibits microorganism growth passing into the system through Microbiostasis condition.

Our technology is effective at capturing 40x smaller size ultrafine particles than HEPA, efficiently removing 100% of particulates @ 0.3 micron. Making HealthWay the most efficient air purifier available.
